NOTES

Index to the Vital Records in the
Albuquerque Journal
Albuquerque, New Mexico

1955

PREFACE

This index is to cover the vital records which normally appear in the newspaper – births, deaths, marriages, and anniversaries. This index is prepared covering any individuals mentioned in the newspaper who have or had connections in New Mexico. In other words, a death occurring in Texas or New York would be indexed only for those persons of New Mexico origin or residence. A death of a person from New York in New Mexico would be indexed here. The news item of someone from New York who died in Texas would not be a part of this index. A marriage of a Coloradoan and a Californian, married in New Mexico and reported in the newspaper, WOULD be indexed here.

The Albuquerque Journal contains a great deal of information about events all over the state of New Mexico, since it is the largest newspaper in the state. This index can be useful for many events which occurred outside of Albuquerque. Be alert when searching as often a subject appeared in more than one article on a page. We have attempted to show that by using "(x2)" to indicate "two times on that page".

At this time, the Rio Grande Library System has the Albuquerque Morning Journal, Albuquerque Journal, and the Albuquerque Tribune available on microfilm from approximately 1882 to the present time. Some early issues are missing. Photocopies of a particular record after 1900 may be obtained from these microfilms at the Main Albuquerque Public Library; beginning in 1958 microfilms may be found also at the Wyoming Branch. The Special Collections Branch has only microfilms of newspapers prior to about 1900.

Photocopies and lookups are available from the Genealogy Club of Albuquerque. See the Publications page at the end of this volume.

It is hoped that we will be able to prepare and publish a full surname index of the Albuquerque newspapers from the first issues to 1920. From 1920 to 1960 it is anticipated that the index will be prepared covering the vital statistics. From 1960 forward most births, deaths, and marriages are available from the New Mexico Vital Records Center in Santa Fe, New Mexico, but we will continue to index the obituaries for all subsequent years because this is a popular resource. The rapid growth of Albuquerque and New Mexico precludes indexing on as extensive a scale as has been previously possible.

The format for this index is quite simple. Names are given alphabetically by surname. It is compiled on an annual basis. This does mean that users will need to check each year, especially if some event occurred towards the latter months of the year. Many events carried over to the following year.

Researchers are advised that about this time there was a column on births in the city and it listed only the gender. In searching births, be sure to look for the various ways it could be listed, as Boy, Girl, Twins, Infant, Baby, Child, and then the father's name is contained in the Remarks section.

The name is followed by the date and page or pages on which an article appeared, with the following legend for the event:

B = Birth
M = Marriage
D = Death
AB = Anniversary of Birth
AD = Anniversary of Death
AM = Anniversary of Marriage.
(x2) = two items on the page
